Summary

I am Assistant Professor within the Department of Electronics, Information and Bioengineering, in the Artificial Intelligence and Robotic Laboratory of Politecnico di Milano. I received the Doctor of Philosophy in Information Technology with honors at Politecnico di Milano in June 2024, supervised by Professor Marcello Restelli. My main research topics revolve around artificial intelligence and machine learning, focusing on online learning and reinforcement learning both from theoretical and applicative perspectives. I have contributed to several industrial research projects funded by both private companies and public institutions. I am member of the ELLIS Society.

Highlights

- Currently **Assistant Professor** with the Department of Electronics, Information and Bioengineering of **Politecnico di Milano**.
- **Doctor of Philosophy in Information Technology** cum Laude from Politecnico di Milano in June 2024.
- Author of **9 publications in peer-reviewed international journals** (9/9 Q1 Scimago, 7/9 as main contributor), including JMLR, AIJ, MLJ, and JAIR. Author of **19 publications in peer-reviewed international conferences** (7/19 as main contributor), including ICML (13), NeurIPS (3), KDD (1), and AISTATS (1). According to Core Conference Rating: 17/19 publications in A* venues.
- **Two Spotlights** at ICML 2024 (A* Core, 335/9473 submissions – top 3.5%), **one Oral** at KDD 2022 (A* Core, 54/753 submissions – top 7%).
- Advisor of **1 Ph.D. student**, co-supervisor of **5 Ph.D. students** (all ongoing).
- Supervisor of **3 M.Sc. students theses** (all ongoing). Co-supervisor of **30 M.Sc. students theses** (25 concluded, 5 ongoing).
- **Lecturer** of the Ph.D. course on **Learning Theory** and of the B.Sc. course on **Computer Science** for Civil Engineering, both at Politecnico di Milano. **Teaching Assistant** of the M.Sc. course of **Machine Learning** at Politecnico di Milano. **Teaching Assistant** and **Laboratory Teaching Assistant** for several B.Sc. courses of **Computer Science**.
- **Organizer** of the 15th **European Workshop on Reinforcement Learning** (EWRL 2022). **Organizer** and **Program Chair** of the 2nd **Workshop on Aligning Reinforcement Learning Experimentalists and Theorists** (ARLET @ NeurIPS 2025) and of the **Workshop on AI for Safety-Critical Infrastructures** (AI-SCI @ ECML 2025). **Co-organizer** of the **Reinforcement Learning Summer School** (RLSS 2026).
- **Area Chair** of NeurIPS and KDD. **Program Committee** member of ICML, AAAI, ICLR, and AISTATS. **Reviewer** for several AI/ML journals.
- Participation in **7 industrial research projects** funded by private companies and research institutions, including 2 projects as **co-Principal Investigator**.
- Participation in the **Horizon Europe** competitive research project **AI4REALNET** (AI for Real-World Network Operation), and in the **FIS2** competitive research project **HUmLrn** (Unified Learning from Diverse Human Feedback).
- **Winner** of the Dimitris N. Chorafas Award, recognized to the two **best Ph.D. Thesis** of the year in **Information Technology** at Politecnico di Milano (≈ 100 candidates).
- **Member** of the **ELLIS Society**.

Education

Ph.D. in Information Technology (Dottorato di Ricerca)

Milano

Politecnico di Milano – Dipartimento di Elettronica, Informazione e Bioingegneria

Nov 2020 – Jun 2024

Advisor: Prof. Marcello Restelli

Thesis: Online Learning Methods for Pricing and Advertising

Reviewers: Alessandro Lazaric (Meta AI, Paris, France) and Tom Cesari (University of Ottawa, Ottawa, Canada)

Final Mark: Laude

Date of Award: June 27, 2024

M.Sc. in Computer Science and Engineering (LM-32 Ingegneria Informatica)

Milano

Politecnico di Milano

Sep 2017 – Dec 2019

Main focus: Artificial Intelligence and Machine Learning

Thesis: Improving Aerodynamic Load Estimation Algorithms for F1 Racing Cars

Supervisor: Prof. Marcello Restelli

Industrial Partner: Scuderia Ferrari F1

Date of Award: December 18, 2019

B.Sc. in Engineering of Computing Systems (L-8 Ingegneria dell'Informazione)

Milano

Politecnico di Milano

Sep 2014 – Jul 2017

Date of Award: July 25, 2017

High School Diploma in Computer Science (Perito Informatico)

Crema

IIS Galileo Galilei

Sep 2008 – Jul 2014

Academic Experience

Assistant Professor (Ricercatore RTD-A – L.240/2010, art.24, c.3, lett.A)

Milano

Politecnico di Milano

Jan 2026 – now

SSD: IINF-05/A, GSD: 09/IINF-05 – Sistemi di Elaborazione delle Informazioni

Postdoctoral Researcher (Assegno di Ricerca – L.240/2010, art.22)

Milano

Politecnico di Milano

Jun 2024 – Jan 2026

Title: Development of machine learning algorithms for the analysis of extreme climate events

SSD: IINF-05/A – Sistemi di Elaborazione delle Informazioni

Research Manager: Prof. Marcello Restelli

Research Assistant (Assegno di Ricerca – L.240/2010, art.22)

Milano

Politecnico di Milano

Jan 2020 – Oct 2020

Title: Development of machine learning algorithms for diagnostics on lithium-ion batteries

SSD: ING-INF/05 – Sistemi di Elaborazione delle Informazioni

Research Manager: Prof. Marcello Restelli

Publications

Overview

- **9 publications in peer-reviewed international journals**, 7/9 as main contributor, 9/9 in Q1 journals according to Scimago, including Journal of Machine Learning Research (JMLR), Artificial Intelligence (AIJ), Machine Learning (MLJ) and Journal of Artificial Intelligence Research (JAIR).
- **19 publications in peer-reviewed international conferences**, 7/19 as main contributor, including ICML (13), NeurIPS (3), KDD (1), and AISTATS (1). According to Core Conference Rating: 17/19 publications in A* venues and 1/19 publication in A venues.
- **17 publications in peer-reviewed international workshops.**

Competitive Research Projects

HUMLrn (Unified Learning from Diverse Human Feedback)

Funding Institution: Italian Ministry of University and Research (FIS2 Funding)

Budget: 1,324,909.96€

Duration: 36 months

Politecnico di Milano

Jan 2026 – now

Principal Investigator: Prof. Alberto Maria Metelli

Description: The HUMLrn project investigates how AI agents can effectively integrate diverse forms of human feedback to improve learning beyond traditional demonstration-based methods. Inspired by human learning, it proposes a unified framework that accommodates multiple feedback types, such as demonstrations and corrections, within a single methodology. The project develops theoretical foundations and novel learning algorithms addressing the statistical challenges of this setting.

AI4REALNET (AI for REAL-world NETwork operation)

Politecnico di Milano

Funding Institution: European Union (Horizon Europe)

Oct 2023 – now

Budget: 3,999,976.25€ (456,250€ to Politecnico di Milano)

Duration: 42 months

Principal Investigator: Prof. Marcello Restelli

Roles:

- Research Scientist in the AI Fundamental Research Work Package (WP2).
- Task Leader for Task 2.2.
- Responsible for Deliverable 2.1 (Position Paper on AI for Safety Critical Infrastructures).

Description: AI4REALNET focuses on AI solutions for critical systems like electricity, railway, and air traffic management, enhancing human operations through simulation-based networks. Its goals are: (i) developing trustworthy AI-driven decision-making with augmented cognition and hybrid human-AI learning, ensuring resilience, safety, and security, and (ii) advancing and validating AI algorithms using open-source digital environments that emulate real-world system operations.

Partners: Politecnico di Milano, INESC TEC, SBB Swiss Federal Railways, Delft University of Technology, EnliteAI, Zurich University of Applied Sciences, University of Applied Sciences and Arts Northwestern Switzerland, NAV Portugal, Fraunhofer IEE, University of Kassel, Reseau de Transport d'Electricite, IRT SystemX, Deutsche Bahn, Linköping University, Flatland Association, University of Amsterdam, TenneT.

Industrial Projects

Leonardo

Milano

AI for Lamination and Drilling Parameters Optimization

2026 – 2028

Role: Co-Principal Investigator

Principal Investigators: Alberto Maria Metelli, Marco Mussi and Marcello Restelli

Duration: 18 Months

Value: 289,950€ + VAT

ENI

Milano

Evaluation of the Reinforcement Learning Methodology for LNG Production Optimization

2026 – 2026

Role: Co-Principal Investigator

Principal Investigators: Alberto Maria Metelli, Marco Mussi and Marcello Restelli

Duration: 2 Months

Value: 21,870€ + VAT

ML cube (Politecnico di Milano's Spin-off)

Milano

Life-Cycle-Management and Optimization of Machine Learning Algorithms in Real-time Biddings *2021 – 2023*

Role: Research Scientist

Principal Investigators: Nicola Gatti, Marcello Restelli and Francesco Trovó

Duration: 24 Months

Value: 84,000€ + VAT

Ricerca Sistema Energetico (RSE)

Milano

Development of Machine Learning Algorithms for Diagnostics on Lithium-ion Batteries

2020 – 2021

Role: Research Scientist

Principal Investigators: Marcello Restelli and Francesco Trovó

Duration: 12 Months

Value: 35,000€ + VAT

PaxMile (Politecnico di Milano's Spin-off)

Milano

Optimization and Artificial Intelligence Algorithms for the PaxMile Last-mile Delivery System *2020 – 2021*

Role: Research Scientist

Principal Investigators: Edoardo Amaldi and Marcello Restelli

Duration: 8 Months

Value: 50,000€ + VAT

Ricerca Sistema Energetico (RSE)*Development of Machine Learning Algorithms for Diagnostics on Lithium-ion Batteries*

Role: Research Scientist

Principal Investigator: Marcello Restelli

Duration: 12 Months

Value: 35,000€ + VAT

Milano

2019 – 2020

Scuderia Ferrari*Improving Machine Learning Techniques for Aerodynamics Performance Optimization*

Role: Student Researcher

Principal Investigator: Marcello Restelli

Duration: 12 Months

Value: 70,000€ + VAT

Milano

2019 – 2020

Technology Transfer

Products Release

ADcube's Marketing Mix Model*In collaboration with Politecnico di Milano's spin-off ML cube*

Focus: Development and release of AD cube's Marketing Mix Model, a product for advertising optimization in online campaigns considering cross-channel interactions

Role: Development of all the Artificial Intelligence algorithms inside the product

Funding: Winner of the ELISE's 2nd Open Call Grants

Milano

2021 – 2023

Dynamic Pricing for E-commerce*In collaboration with the e-commerce website Eurooffice*

Focus: Development and release of a dynamic pricing solution for an e-commerce website managing over 20,000 products

Role: Development of all the Artificial Intelligence algorithms inside the product

Milano

2021 – 2022

Open Source Software Release

Gym4ReaL: A Benchmarking Suite for Real-Life Reinforcement Learning*Open Source Library to test Reinforcement Learning Algorithms*

Availability: Available on GitHub

Milano

2025 – now

ARLO: Automated Reinforcement Learning Optimizer*Open Source Library for Automated Reinforcement Learning*

Availability: Available on GitHub

Milano

2021 – 2022

Teaching

Lecturer

Lecturer of Learning Theory*Learning Theory – Politecnico di Milano*

Foundational aspects of machine learning and statistical learning theory.

Ph.D. Level – Information Technology.

A.Y. 2025-26. ≈50 students. 5 CFU.

Co-lecturer: Prof. Alberto Maria Metelli.

Course delivered in English.

15 Hours

Mar 2026 – Apr 2026

Lecturer of Computer Science*Computer Science – Politecnico di Milano*

Foundational aspects of programming. Focus on C and Fortran.

B.Sc. in Civil Engineering – Milano Leonardo Campus.

A.Y. 2025-26. II semester. ≈190 students. 6 CFU.

Course delivered in English.

Students' Evaluation: Pending.

36 Hours

Feb 2026 – Jun 2026

Teaching Assistant

Teaching Assistant of Machine Learning*Machine Learning – Politecnico di Milano***20 Hours**

Feb 2026 – Jun 2026

Exercise sessions mainly on supervised and reinforcement learning.
M.Sc. in Computer Science and Engineering – Milano Leonardo Campus.
A.Y. 2025-26. II semester. ≈480 students. 5 CFU.
Lecturer: Prof. Marcello Restelli.
Course delivered in English.
Students' Evaluation: Pending.

Teaching Assistant of Computer Science

20 Hours

Foundations of Computer Science (Fondamenti di Informatica) – Politecnico di Milano Sep 2025 – Dec 2025

Exercise sessions mainly on the C programming language.
B.Sc. in Engineering of Computing Systems – Milano Leonardo Campus.
A.Y. 2025-26. I semester. ≈270 students. 10 CFU.
Lecturer: Prof. Alberto Maria Metelli.
Course delivered in Italian.
Students' Evaluation: 3.4/4 (University Average: 3.2/4).

Teaching Assistant of Computer Science

24 Hours

Computer Science – Politecnico di Milano

Feb 2025 – Jun 2025

Exercise sessions mainly on C and Fortran programming languages.
B.Sc. in Civil Engineering – Milano Leonardo Campus.
A.Y. 2024-25. II semester. ≈140 students. 6 CFU.
Lecturer: Prof. Alberto Maria Metelli.
Course delivered in English.
Students' Evaluation: 3.4/4 (University Average: 3.2/4).

Teaching Assistant of Computer Science

24 Hours

Computer Science – Politecnico di Milano

Feb 2024 – Jun 2024

Exercise sessions mainly on C and Fortran programming languages.
B.Sc. in Civil Engineering – Milano Leonardo Campus.
A.Y. 2023-24. II semester. ≈110 students. 6 CFU.
Lecturer: Prof. Alberto Maria Metelli.
Course delivered in English.
Students' Evaluation: 3.4/4 (University Average: 3.1/4).

Laboratory Teaching Assistant

Laboratory Teaching Assistant of Computer Science

15 Hours

Computer Science (Informatica B) – Politecnico di Milano

Sep 2024 – Dec 2024

Laboratory sessions on C and MATLAB programming languages.
B.Sc. in Mechanical Engineering – Milano Bovisa Campus.
A.Y. 2024-25. I semester. ≈280 students. 7 CFU.
Lecturer: Prof. Francesco Trovó.
Course delivered in Italian.
Students' Evaluation: 3.1/4 (University Average: 3.2/4).

Tutor

Academic Tutor of Machine Learning

30 Hours

Master in Artificial Intelligence and Machine Learning – Cefriel

Sep 2022 – Jul 2023

Supervision of a team in the application of Reinforcement Learning algorithms to real-world control problems.
Tutoring delivered in Italian.

Other Teaching Activities

Lecturer of Applied Machine Learning (DICE Project)

3 Lessons

Applied Machine Learning – METID – Politecnico di Milano

2026

Foundations of Neural Networks.
Co-lecturer: Prof. Alberto Maria Metelli.
Online course delivered in English.

Member of Scientific Societies

European Laboratory for Learning and Intelligent Systems (ELLIS)

European Union

Member

Jun 2025 – now

Focus: ELLIS is a pan-European AI network founded in 2018. It promotes top-level research in machine learning to drive innovation and ensure Europe's leadership in AI.
Part also of the Ellis Unit Milan.

Associazione Italiana per l'Intelligenza Artificiale (AIxIA)

Italy

Member

2025

Focus: AlxIA has been promoting the study and research of Artificial Intelligence and coordinating activities in the field in Italy since 1988.

Organization of International Events

Reinforcement Learning Summer School (RLSS)

Milano

Co-organizer

Held in the Leonardo Campus of Politecnico di Milano from 3 to 12 June 2026.

Attendance: ≈ 140 . Number of applications: ≈ 400 .

Aligning Reinforcement Learning Experimentalists and Theorists (ARLET) Workshop

San Diego

Organizer and Program Chair

Held within the Conference on Neural Information Processing Systems (NeurIPS 2025) on December 6, 2025.

2nd edition. Attendance: ≈ 150 . Number of submitted papers: ≈ 140 (accepted: ≈ 100).

NeurIPS 2025 workshop proposals' acceptance rate: 19.4% (55/283).

AI for Safety-Critical Infrastructures (AI-SCI) Workshop

Porto

Organizer and Program Chair

Held within the European Conference on Machine Learning and Principles and Practice of Knowledge Discovery in Databases (ECML-PKDD 2025) on September 15, 2025.

European Workshop on Reinforcement Learning (EWRL)

Milano

Organizer and Communication Chair

Held in the Bovisa Campus of Politecnico di Milano from 19 to 21 September 2022.

15th edition. Attendance: ≈ 150 . Number of submitted papers: ≈ 100 (accepted: ≈ 70).

Collaborations

AI4REALNET Consortium

European Union

Various Research Collaborations

2023 – now

Collaborations in the context of the Horizon Europe project AI4REALNET with research centers and universities (Delft University of Technology, INESC TEC, Zurich University of Applied Sciences, University of Applied Sciences and Arts Northwestern Switzerland, Fraunhofer IEE, University of Kassel, IRT SystemX, Linköping University, University of Amsterdam) and companies (SBB Swiss Federal Railways, EnliteAI, NAV Portugal, Reseau de Transport d'Electricite, Deutsche Bahn, Flatland Association, TenneT). Leading role (first author) in the writing of a consortium paper (accepted at Cell's iScience).

Politecnico di Milano

Milano

Various Research Collaborations

2020 – now

Research collaborations with Prof. Marcello Restelli, Prof. Nicola Gatti, Prof. Francesco Trovò, Prof. Alberto Maria Metelli, Prof. Matteo Castiglioni, several postdoctoral researchers and PhD students.

Invited Talks and Seminars

Invited Talks

Reinforcement Learning and Game Theory Workshop

AI-ML Systems Conference

On the Accuracy-Complexity Trade-off in Gaussian Processes

9 October 2026

This is IT! – Best Theses Talks (Ph.D. Students in Information Technology)

Politecnico di Milano

Online Learning Methods for Pricing and Advertising

19 November 2025

Seminars

AI4REALNET Dissemination Seminar (Online) – Invited

AI4REALNET Consortium

Distributed and Hierarchical Reinforcement Learning

24 April 2024

DEIB Seminar

Politecnico di Milano

An introduction to Reinforcement Learning in Real World

3 September 2021

RSE Academy Seminar – Invited

Ricerca Sistema Energetico

A Data-Driven Method for State of Charge Estimation

23 October 2020

Awards and Recognitions

International Conference Papers' Awards

Spotlight Paper at the 41st International Conference on Machine Learning **ICML 2024**
Paper: "Learning Optimal Deterministic Policies with Stochastic Policy Gradients" *July 2024*

Spotlight Paper: top 3.5% over 9473 submissions at ICML 2024 (Core 2023: A* – GGS 2021: A++).
Link: <https://icml.cc/virtual/2024/poster/34781>

Spotlight Paper at the 41st International Conference on Machine Learning **ICML 2024**
Paper: "Best Arm Identification for Stochastic Rising Bandits" *July 2024*

Spotlight Paper: top 3.5% over 9473 submissions at ICML 2024 (Core 2023: A* – GGS 2021: A++).
Link: <https://icml.cc/virtual/2024/poster/33841>

Oral Presentation at the 28th Conference on Knowledge Discovery and Data Mining **KDD 2022**
Paper: "Pricing the Long Tail by Explainable Product Aggregation and Monotonic Bandits" *August 2022*

Oral Presentation: top 7% over 753 submissions at KDD 2022 (Core 2021: A* – GGS 2021: A++).
Link: <https://kdd.org/kdd2022/paperADS.html>

Other Papers' Awards

Spotlight Paper at the 2nd Workshop on Epistemic Intelligence in Machine Learning **EIML 2026**
Paper: "Robust Learning to Rank from Incomplete Rankings under Positional Censoring" *July 2026*

Spotlight Paper with Oral Presentation: top 17 over 79 accepted papers.

Publications in Top Journals Award **DEIB — Politecnico di Milano**
Awarded to the Top-10 Papers from PoliMi DEIB's Young Researchers *December 2025*

Paper: "Factored-Reward Bandits with Intermediate Observations: Regret Minimization and Best Arm Identification"
Link: <https://www.deib.polimi.it/eng/news/details/1469>

Oral Presentation at the 15th European Workshop on Reinforcement Learning **EWRL 2022**
Paper: "Dynamic Pricing with Online Data Aggregation and Learning" *September 2022*

Oral Presentation: top 10 over 96 submissions at EWRL 2022.
Link: <https://ewrl.wordpress.com/past-ewrl/ewrl15-2022>

Personal Research Awards and Recognitions

Winner of the "Dimitris N. Chorafas Award" **Chorafas Foundation**
Two \$10,000 prize awarded to the best two Ph.D. thesis (out of ≈ 100 candidates) *September 2025*

The Dimitris N. Chorafas Foundation awards scientific prizes for outstanding work in selected fields in the engineering sciences, medicine and the natural sciences. It rewards research with high potential for practical application and special significance attached to its aftermath. The Foundation has 21 partner universities in Europe, North America and Asia (among which MIT, ETHZ, UCLA, Purdue, TUM, EPFL). It currently reserves two annual awards to the Ph.D. in Information Technology programme of Politecnico di Milano.

Link: <https://www.deib.polimi.it/eng/news/details/1463>

Recipient of a "Springer Award" **Politecnico di Milano**
From the Information Technology Ph.D. Board of Professors *June 2025*

Publication in a PoliMi SpringerBriefs volume, for the best results from the IT Ph.D. program doctors.
Link: <https://link.springer.com/book/10.1007/978-3-032-12359-6>

Student Awards

Scholarship Recipient **Politecnico di Milano**
For all eligible years of the M.Sc. in Computer Science and Engineering *2017 – 2019*
Tuition waiver for high academic performance.

Ph.D. Students Supervision

Advised Ph.D. Students

- [1] Cristiano Migali – Ph.D. Student in Information Technology (XLI cycle) at the Department of Electronics, Information and Bioengineering of Politecnico di Milano. Co-supervisor: Alberto Maria Metelli.

Co-supervised Ph.D. Students

- [1] Alessandro Montenegro – Ph.D. Student in Information Technology (XXXIX cycle) at the Department of Electronics, Information and Bioengineering of Politecnico di Milano. Advisor: Prof. Alberto Maria Metelli. Co-supervisors: Marco Mussi, Matteo Papini and Marcello Restelli. Informal co-supervision.
- [2] Gianvito Losapio – Ph.D. Student in Information Technology (XXXIX cycle) at the Department of

Electronics, Information and Bioengineering of Politecnico di Milano. Advisor: Prof. Marcello Restelli. Co-supervisors: Alberto Maria Metelli and Marco Mussi. Informal co-supervision.

- [3] Federico Corso – Ph.D. Student in Information Technology (XLI cycle) at the Department of Electronics, Information and Bioengineering of Politecnico di Milano. Advisor: Prof. Alberto Maria Metelli. Co-supervisors: Marco Mussi and Marcello Restelli. Formal co-supervision.
- [4] Diego Aloviseti – Ph.D. Student in Information Technology (XLI cycle) at the Department of Electronics, Information and Bioengineering of Politecnico di Milano. Advisor: Prof. Alberto Maria Metelli. Co-supervisor: Marco Mussi. Formal co-supervision.
- [5] Riccardo Colletti – Ph.D. Student in Information Technology (XLII cycle) at the Department of Electronics, Information and Bioengineering of Politecnico di Milano. Advisor: Prof. Alberto Maria Metelli. Co-supervisor: Marco Mussi. Formal co-supervision.

M.Sc. Students Supervision

Supervised M.Sc. Theses

Poster Presentations and Oral Talks

- Poster Presentation of "Modeling Incomparability: A New Rationality Paradigm for Preference-Based Reinforcement Learning" at the 2nd Workshop on Epistemic Intelligence in Machine Learning, part of the 43rd International Conference on Machine Learning (ICML 2026 – Seoul, South Korea – July 2026)
- Poster Presentation of "Robust Learning to Rank from Incomplete Rankings under Positional Censoring" at the 2nd Workshop on Epistemic Intelligence in Machine Learning, part of the 43rd International Conference on Machine Learning (ICML 2026 – Seoul, South Korea – July 2026)
- Poster Presentation of "Learning to Rank from Incomplete Rankings" at the 43rd International Conference on Machine Learning (ICML 2026 – Seoul, South Korea – July 2026)
- Poster Presentation of "Fast Mixing Steady-State Control in Markov Decision Processes" at the 43rd International Conference on Machine Learning (ICML 2026 – Seoul, South Korea – July 2026)
- Poster Presentation of "Reusing Trajectories in Policy Gradients Enables Fast Convergence" at the 43rd International Conference on Machine Learning (ICML 2026 – Seoul, South Korea – July 2026)

- Poster Presentation of "Online Compatible Reward Identification from Preference Feedback" at the 43rd International Conference on Machine Learning (ICML 2026 – Seoul, South Korea – July 2026)
- Poster Presentation of "Trading-off Reward Maximization and Stability in Sequential Decision Making" at the 18th European Workshop on Reinforcement Learning (EWRL 2025 – Tübingen, Germany – September 2025)
- Poster Presentation of "A Theoretical Perspective on Sequential Decision Making with Preference Feedback" at the 18th European Workshop on Reinforcement Learning (EWRL 2025 – Tübingen, Germany – September 2025)
- Poster Presentation of "A Novel Self-Normalized Bernstein-Like Dimension-Free Inequality and Regret Bounds for Generalized Kernelized Bandits" at the 18th European Workshop on Reinforcement Learning (EWRL 2025 – Tübingen, Germany – September 2025)
- Poster Presentation of "Gym4ReaL: A Benchmark Suite for Evaluating Reinforcement Learning in Realistic Domains" at the 18th European Workshop on Reinforcement Learning (EWRL 2025 – Tübingen, Germany – September 2025)
- Poster Presentation of "Sleeping Reinforcement Learning" at the 42nd International Conference on Machine Learning (ICML 2025 – Vancouver, B.C., Canada – July 2025)
- Poster Presentation of "Towards Theoretical Understanding of Sequential Decision Making with Preference Feedback" at the 42nd International Conference on Machine Learning (ICML 2025 – Vancouver, B.C., Canada – July 2025)
- Poster Presentation of "Convergence Analysis of Policy Gradient Methods with Dynamic Stochasticity" at the 42nd International Conference on Machine Learning (ICML 2025 – Vancouver, B.C., Canada – July 2025)
- Poster Presentation of "Position: Constants are Critical in Regret Bounds for Reinforcement Learning" at the 42nd International Conference on Machine Learning (ICML 2025 – Vancouver, B.C., Canada – July 2025)
- Poster Presentation of "Factored-Reward Bandits with Intermediate Observations" at the 41st International Conference on Machine Learning (ICML 2024 – Vienna, Austria – July 2024)
- Poster Presentation of "Best Arm Identification for Stochastic Rising Bandits" at the 41st International Conference on Machine Learning (ICML 2024 – Vienna, Austria – July 2024)
- Poster Presentation of "Learning Optimal Deterministic Policies with Stochastic Policy Gradients" at the 41st International Conference on Machine Learning (ICML 2024 – Vienna, Austria – July 2024)
- Poster Presentation of "Graph-Triggered Rising Bandits" at the 41st International Conference on Machine Learning (ICML 2024 – Vienna, Austria – July 2024)
- Poster Presentation of "Open Problem: Tight Bounds for Bernoulli Rewards in Kernelized Multi-Armed Bandits" at the Workshop on Aligning Reinforcement Learning Experimentalists and Theorists, part of the 41st International Conference on Machine Learning (ICML 2024 – Vienna, Austria – July 2024)
- Poster Presentation of "Autoregressive Bandits" at the 27th International Conference on Artificial Intelligence and Statistics (AISTATS 2024 – Valencia, Spain – May 2024)
- Poster Presentation of "Online Learning in Autoregressive Dynamics" at the 16th European Workshop on Reinforcement Learning (EWRL 2023 – Brussels, Belgium – September 2023)
- Poster Presentation of "Stochastic Rising Bandits: A Best Arm Identification Approach" at the 16th European Workshop on Reinforcement Learning (EWRL 2023 – Brussels, Belgium – September 2023)
- Poster Presentation of "Dynamical Linear Bandits" at the 40th International Conference on Machine Learning (ICML 2023 – Honolulu, Hawaii, USA – July 2023)
- Poster Presentation of "A Best Arm Identification Approach for Stochastic Rising Bandits" at the Workshop on New Frontiers in Learning, Control, and Dynamical Systems, part of the 40th International Conference on Machine Learning (ICML 2023 – Honolulu, Hawaii, USA – July 2023)

- Oral Presentation of "Dynamic Pricing with Volume Discounts in Online Settings" at the 35th Conference on Innovative Applications of Artificial Intelligence, part of the 37th AAAI Conference on Artificial Intelligence (IAAI/AAAI 2023 – Virtual – February 2023)
- Poster Presentation of "Dynamic Pricing with Online Data Aggregation and Learning" at the 15th European Workshop on Reinforcement Learning (EWRL 2022 – Milan, Italy – September 2022)
- Poster Presentation of "Pricing the Long Tail by Explainable Product Aggregation and Monotonic Bandits" at the ACM SIGKDD Conference on Knowledge Discovery and Data Mining (KDD 2022 – Washington D.C., USA – August 2022)
- Poster Presentation of "Dynamical Linear Bandits for Long-Lasting Vanishing Rewards" at the Complex Feedback in Online Learning Workshop, part of the 39th International Conference on Machine Learning (ICML 2022 – Baltimore, Maryland, USA – July 2022)

Other Academic Activities

Participation in International Conferences and Workshops

- 43rd International Conference on Machine Learning – ICML 2026
Seoul, South Korea. July 2026.
- 18th European Workshop on Reinforcement Learning – EWRL 2025
Tübingen, Germany. September 2025.
- 42nd International Conference on Machine Learning – ICML 2025
Vancouver, B.C., Canada. July 2025.
- 41st International Conference on Machine Learning – ICML 2024
Vienna, Austria. July 2024.
- 27th International Conference on Artificial Intelligence and Statistics – AISTATS 2024
Valencia, Spain. May 2024.
- 16th European Workshop on Reinforcement Learning – EWRL 2023
Brussels, Belgium. September 2023.
- 40th International Conference on Machine Learning – ICML 2023
Honolulu, Hawaii, USA. July 2023.
- 15th European Workshop on Reinforcement Learning – EWRL 2022
Milan, Italy. September 2022.
- 28th ACM International Conference on Knowledge Discovery and Data Mining – KDD 2022
Washington D.C., USA. August 2022.
- 39th International Conference on Machine Learning – ICML 2022
Baltimore, Maryland, USA. July 2022.

Participation in Training Programs and Summer Schools

- Enhanced PhD Supervisor Training Course
Politecnico di Milano, Milan, Italy. May 2026.
- Reinforcement Learning Summer School – RLSS 2023
Barcelona, Spain. June 2023.
- DeepLearn Summer School – DeepLearn 2021
Virtual. July 2021.

Area Chair Activities

International Conferences:

- Neural Information Processing Systems (NeurIPS) — 2026

- ACM SIGKDD Conference on Knowledge Discovery and Data Mining (KDD) — 2026
- International Conference on Artificial Intelligence and Statistics (AISTATS) — 2027

Reviewer Activities

International Conferences:

- Neural Information Processing Systems (NeurIPS) — 2023, 2024, 2025
- International Conference on Machine Learning (ICML) — 2023, 2024, 2025, 2026
- International Conference on Learning Representations (ICLR) — 2024
- International Conference on Artificial Intelligence and Statistics (AISTATS) — 2023, 2026
- AAAI Conference on Artificial Intelligence (AAAI) — 2024, 2025, 2026
- International Conference on Automated Machine Learning (AutoML) — 2022

International Journals:

- Springer – Machine Learning (Q1)
- IEEE – Transactions on Neural Networks and Learning Systems (Q1)
- IEEE – Robotics and Automation Letters (Q1)
- Elsevier – Engineering Applications of Artificial Intelligence (Q1)

International Workshops:

- European Workshop on Reinforcement Learning (EWRL) — 2023, 2024, 2025, 2026
- AutoRL @ ICML 2024
- ARLET @ ICML 2024

Last update: October 9th, 2026
